EXPERIENCE

MERN Full Stack Intern: Micronsol

May 2026 – Aug 2026

- Created responsive UI using React and Redux-Thunk, leading to a 20% decrease in load times and raising user retention on mobile and desktop platforms
- Designed RESTful APIs using Express.js and handled 100+ daily API calls, increasing task update accuracy and improving backend response monitoring
- Engineered JWT-based authentication, securing user sessions and achieving 99% login success rate while minimizing invalid access attempts
- Optimized MongoDB queries and resolved frontend/backend issues using Postman and DevTools, reducing average query times and bug reports by 40% for 1,000+ users • Applied Tailwind CSS for responsive styling, driving a 50% boost in mobile responsiveness and enhancing user interface compatibility across tablets, phones, and small-screen devices

SKILLS

❖ HTML , CSS5 , TypeScript , Bootstrap , React.js , Node.js , Express.js , MongoDB .

PROJECTS

Article Management Web Application

Jun 2026 – July 2026

- Engineered backend with Express.js, deploying REST APIs, supporting CRUD operations with response times under 100ms across article and comment requests
- Structured MongoDB integration with Mongoose schemas, storing 500+ articles and comments, reducing data retrieval lag through optimized indexing

Blog Application

Jul 2026 – Aug 2026

- Developed a blog platform using React and Redux, integrating React Router, reducing navigation delays by 28% and supporting smoother transitions between interactive content pages
- Implemented responsive UI with Tailwind CSS, increasing layout compatibility across devices and standardizing visual components across mobile, tablet, and desktop resolutions

Portfolio Website

Aug 2026 – Aug 2026

- Created a portfolio site with HTML, CSS, JavaScript, & Bootstrap, improving layout consistency across device viewports
- Applied Bootstrap and established mobile responsiveness, achieving a 50% improvement in accessibility scores across different browser environments and screen resolutions

EDUCATION

Deen Dayal Upadhyay University

Bachelor of Computer Application (BCA)

TRAINING

• MERN Stack Training from Micron Infotech

Apr 2024 – Sep 2024
